Videos In Sequence

Video versions of all 9 tracks on disc 1 available in stereo or Dolby surround as well as two different commentary tracks with 1 viewing option.

Audio stream 1 cataloged as Videos In Sequence

Audio stream 2 cataloged as Videos In Sequence (Dolby Surround Mix)

Audio stream 3 cataloged as Videos In Sequence (Band Commentary)

Audio stream 4 cataloged as Videos In Sequence (Director's Commentary)

4 different Audio Streams have been Cataloged for this track.

Before proceeding to Videos with supplements it should be noted that Dolby 5.1 is offered only for videos in sequence, NOT available for Videos with supplements. As a result, only audio from the videos in sequence will have tracks ultimately listed as "(Dolby Surround Mix)". It should also be noted that for the sake of completeness, each individual track of the Videos With Supplements folder will include an audio stream for every angle available in the event that the audio was altered to sync to the available video. It is counterintuitive to think that the audio would have been altered rather than the video, but in pursuit of a definitive answer, as well as for the sake of completeness, each audio stream associated with each angle will be recorded and cataloged for comparison.
